SKILLS

Languages : C++, Python, JavaScript
Web Technologies : HTML, CSS, MERN Stack (MongoDB, Express.js, ReactJS, Node.js), Flask
Databases : SQL, MongoDB
Version Control : Git, GitHub

PROFESSIONAL EXPERIENCE

FrontEnd Intern – Galctix Solutions Pvt Ltd

Jan 2025 - Mar 2025

- Designed and built a responsive landing page using **React**, and custom **CSS**
- Developed **authentication** and **authorization** mechanisms, implementing Role-Based Access Control (**RBAC**) for secure and restricted user access.
- Integrated **React Calendar** for event scheduling and **customized interactive maps** for enhanced user experience and location-based data visualization.

PROJECTS

Event Countdowner | *HTML, CSS, JavaScript*

- Developed an interactive UI application that allows users to create new events, set countdown timers, and view the New Year countdown for different countries

Food donation web application | *MERN Stack*

- Developed a food donation platform with two interfaces for donors and receivers
- Simplified the donor experience, making it easy to specify available food details.
- Enabled receivers to access information about nearby available food through the website.

EpiRecipies Search Platform | *ReactJS, Python*

- Users can easily search for recipes using filters for calories, ratings, and recipe names.
- Used OpenSearch for efficient data indexing and retrieval
- Developed a Python (Flask) backend with RESTful APIs to enable seamless search and filtering.

CERTIFICATES

Data Analytics : *Earned a Google Data Analytics certificate through Coursera*

Mern stack : *Certification in full-stack development using MERN technologies*

EDUCATION

VNRVJIET

2020-2024

B.tech Computer Science

CGPA: 7.4

Prathibha Junior Collage

2017-2019

Intermediate

New Rishi High School

2017

10th Standard(SSC)

ACHIEVEMENTS

- Achieved a 5-star rating in Problem Solving on HackerRank
- Achieved a 5-star rating in SQL on HackerRank
- Participated in VNRVJIET coding contests, resulting in improved programming skills.
